

PRESS RELEASE

Energy Storage Systems

BMZ Group announces cooperation with Hans H. Schive in Norway

BMZ GmbH cooperates in the area of energy storage systems with the Norwegian company Hans H. Schive, which as the sole Norwegian company becomes the representative for the energy storage systems (ESS) of the BMZ Group in Norway. The partnership will start in May 2018. *"The BMZ Group will further expand its market share in the energy storage market with the cooperation in Norway. With the company Hans H. Schive we have found an experienced and reliable battery specialist as a partner "*, explains Sven Bauer, CEO & Founder of the BMZ Group. *"We are pleased about the strategic partnership with the BMZ Group, which is one of the most advanced companies in the field of lithium-ion technologies for energy storage"*, says Sven Andre Aarseth, CEO of Hans H. Schive AS in Asker, Norway. The BMZ Group also sells its ESS through various partners in Europe and works with inverter manufacturers such as SMA, Victron Energy and STUDER.

Environmentally-Friendly Lithium Ion Battery Technology

With the ESS 7.0, ESS 9.0 and ESS X, solar power users are more independent from electricity prices and use the eco-friendly electricity they produce in house whenever they need it. The ESS is an environmentally-friendly lithium-ion battery technology with a service life of up to 20 years, and is ideal for private households and commercial facilities. Modular lithium ion energy storage allows the photovoltaic energy you produce to be stored in battery modules for later use. Excess energy can be fed into the network in a targeted manner.

About BMZ Group

The BMZ Group is a global player in lithium-ion system solution production. BMZ is a system supplier for many types of products such as energy storage systems, E-bikes, large-scale batteries for buses, forklifts, E-boats, industrial trucks, street sweepers, aerospace applications, power and garden tools, and medical equipment. Around 2,300 employees work for the BMZ Group across the globe. This results in cost advantages for our customers. BMZ Group is a global player in the production of lithium-ion system solutions. The Group is headquartered in Germany and has production facilities in China, Poland and the USA as well as offices in Japan and France. In addition, there are research & development facilities worldwide. BMZ has more than 20 years of experience with over 2,000 customers and implements around 250 new projects every year.

About Hans H. Schive AS

Hans H. Schive AS has for more than 3 decades been a respected supplier of battery solutions and cells to the industrial and offshore market. With its strong in-house battery design competence and local assembly capabilities, Hans H. Schive AS has achieved a unique position in the Lithium primary and Lithium-Ion market for demanding customer applications. Hans H. Schive AS has in-depth knowledge to specify and build customer specific batteries for industrial, high temperature, offshore and subsea applications, and has also become a leading supplier of energy storage systems used in both onshore, offshore and subsea applications.
